Feedback Link: <https://forms.gle/7sWA2wMmZKJFXose9>

7. Event description/Summary :

The importance of soft skills such as effective communication, teamwork, logical thinking, and analytical abilities was discussed in depth. They then moved on to talk about the characteristics and technical skills, such as Presentation, Visualization, Academics, and Industrial and Management abilities, with a focus on the necessity of interdisciplinary skills. Intellectual property rights are the rights granted to individuals over their intellectual works. They often grant the inventor exclusive rights to utilise his or her invention for a set length of time. It grants a person certain exclusive rights to a specific form of creative design, which means that no one else may reproduce or reuse the creation without the owner's consent. It can be used to describe musical, literary, and aesthetic works, as well as discoveries and innovations. Copyright, trademarks, patents, industrial design rights, and trade secrets are examples of common intellectual property rights.

10. Overall feedback analysis
