- Date: : 21st to 26th April 2025 **Offline Mode**

- Under the Banner of : **TESLA & IE(I)**

- Photograph:

- **Objective of the Event / Activity:**
    - ➢ To build speed and accuracy in solving math-based problems.
    - ➢ Learn techniques to solve questions quickly and efficiently.
    - ➢ To help identify suitable career paths based on strengths in logical, numerical, or verbal areas.

- **Program Flow:** **(Agenda Attached)**
    - ➢ Welcome the Resource Person.
    - ➢ Welcome address by HOD.

- **Outcome of the Program:**
    - ➢ To develop the ability to solve complex problems quickly and accurately, applying logical and analytical thinking.
    - ➢ Students become better at recognizing patterns, sequences, and relationships between concepts, which helps in reasoning tasks.

- **List of all the Participants with their signature:**

    Conducted Offline mode and around 40+ Students were present.

- **Feedback from the Students:**
    - ➢ The classes were very interactive, and I enjoyed solving problems with my peers.
    - ➢ More practice questions with explanations could have been helpful.
