The current issue of JCE BGM – Reflections highlights the key activities conducted on campus and showcases the notable achievements of our students and faculty during the last quarter, from October 2025 to December 2025.

During this period, a wide range of academic, co-curricular, and professional development events were organized. Regular interactions with experts from industry and academia were facilitated, enriching the learning experience for both students and faculty. The auspicious commencement of the academic journey for postgraduate students of M.Tech (CCT), MBA, and MCA was marked through Shubha-Arambha 2025. A major highlight of the quarter was the annual project exhibition, JCE-AVINYA 2025, where student projects were evaluated by expert panel members from industry and academia. The panels appreciated the innovation, technical depth, and quality of the project work presented. In alignment with the vision of the Smart India Hackathon (SIH), NEXORA, a national-level hackathon, was organized, witnessing enthusiastic participation from across the state and neighboring states. In association with the Institution of Engineers (India), the Department of Electrical and Electronics Engineering conducted a unique competition titled 3-Minute Project Presentation, encouraging students to present their ideas concisely and effectively. The Department of Mechanical Engineering successfully organized the International Conference on Intelligent Mobility Systems, in association with the Society of Automotive Engineers (SAE) India, Bengaluru Section, as the technological partner.

The continued excellence of our students in sports was once again reflected through the achievement of University Blues. The Ek Bharat Shreshtha Bharat Club organized various competitions promoting cultural integration and student engagement. Additionally, around twenty students successfully completed six-month internships at prestigious central government organizations such as DRDO and ISRO. In terms of career progression, approximately 380 internship and placement offers were secured by students of the 2025–26 graduating batch, and the count is expected to reach 100% placement for all eligible students. We congratulate and sincerely thank all faculty members, staff, and students for their contributions towards the successful publication of this issue of the newsletter.

Dr. J. Shivakumar
Principal & Director

Editor's Speak

The October–December 2025 quarter at Jain College of Engineering, Belagavi reflected strong progress in innovation, industry collaboration, and student development. Key events included JCE-AVINYA 2025, the national hackathon NEXORA, and the International Conference on Intelligent Mobility Systems (ICIMS-2025) hosted by the Mechanical Engineering department.

Students excelled in competitions such as the Smart India Hackathon and 3-Minute Project Presentation, earned University Blues in multiple sports, and secured over 395 placement and internship offers, including internships at DRDO and ISRO. Departments conducted expert talks, site visits, and hands-on workshops, while faculty advanced research through FDPs and NPTEL certifications. Cultural activities through student clubs further enriched campus life.

Overall, the quarter reinforced JCE's commitment to innovation, industry readiness, and holistic education.

Dr. S. Rohitraj
Professor, HOD - MBA

This issue highlights the October–December 2025 quarter at Jain College of Engineering, Belagavi, marked by strong academic progress, innovation, and industry engagement. Key events such as JCE-AVINYA 2025, the NEXORA hackathon, and the International Conference on Intelligent Mobility Systems provided platforms for creativity and expert interaction. Students excelled in national competitions, secured over 395 placement offers, and completed prestigious internships at DRDO and ISRO.

Hands-on learning initiatives, active faculty research, and vibrant cultural and sports activities further reinforced JCE's commitment to holistic, industry-ready education.

41. Prof. Umesh Mujumdar and Dr. Ravishankar L Hutagi completed the NPTEL course on "Matrix Computation and its Applications" held from Jul - Dec 2025.
42. Prof. Girish P. Kadakol completed the NPTEL course on "Introduction to Wireless and Cellular Communications" and "Analysis and Design Principles of Microwave Antennas" held from Jul - Dec 2025.
43. Dr. Anand K. Hosamani published "Influence of Micro-Sized Filler Reinforcement in Tribological Performance of Ceramic Matrix Composites" as a book chapter in Micro- and Nanocomposites (pp.197-216) 1st Edition in Nov 2025.
44. Dr. Madhavi Magi completed the NEP 2020 Orientation & Sensitization Programme in online mode under Malaviya Mission Teacher Training Programme (MMTTP) of MoE, Government of India organized by Malaviya Mission Teacher Training Centre, Shri Ram College of Commerce (MMTTC, SRCC) from 02/12/2025 to 10/12/2025.

45. Prof. Vishwanath A. Modagi completed the NPTEL course on “Engineering Mathematics - I” held from Jul - Dec 2025
46. Dr.Sachinkumar, Professor and HOD, Department of CSE(AI&ML), Presented and Published a paper in Web of Science indexed, entitled SPOT-Route: A Semantic and Vision-Driven Framework for Smart Public Transport Scheduling using SHACL and SPARQL approaches.
47. Dr.Sachinkumar, appointed for IEEE International Conference as Session Chair External organized by Sri Siddharth Institute of Technology, Tumakuru in association with IEEE Bengaluru section during 10/12/2025 to 11/12/2025.
48. Dr.Sachinkumar, Published a paper entitled “Biometric Authentication using EEG Signals and Deep Temporal Convolution Networks in IEEE International Conference in December 2025.
49. Dr. Basavaraj V. Hubballi is a Editor for a Book series on “Advances in Manufacturing Engineering: Technologice, Processes, and Industrial Innovations.
50. Dr.Nityanand S Kudachimath from Civil Engineering Department was selected as an evaluator for the 38th Kerala Science Congress Technical Paper Evaluation & Technical Sessions Committee organized by the Kerala State Council for Science, Technology and Environment (KSCSTE).
51. Dr. S Rohitraj (Prof & HOD- MBA) is nominated as the Board of Studies (BOS) member in Business Administration (MBA and allied programmes/ BBA and allied Programmes) of Visvesvaraya Technological University, Belagavi for the period 2025- 2028 .
52. Dr. S Rohitraj (Prof & HOD- MBA) is appointed as a Subject Expert on the university-level selection committee constituted by Visvesvaraya Technological University (VTU), Belagavi.
53. Dr. S Rohitraj (Prof & HOD- MBA) - 3rd consecutive time – is Nominated by the Honorable Vice- Chancellor of VTU as the member of the Expert Committee for Pre-Registration Interview of VTU ETR exempted and VTU- ETR Qualified candidates for the faculty of Management.
54. Mr. Raviprakash Phattepur (Faculty - MBA) has cleared the UGC NET Examination 2025 , KSET 2025 , Ph.D. VTU Course work Examination 2025. & completed ATAL FDP on emerging technologies and intelligent systems for strategic business transformation at Sri Devaraj Urs Institute of Management from 24/11/2025 to 29/11/2025.
55. Mr. Sujay Walvekar (Faculty - MBA) has attended and cleared the 4th Guru dakshata FIP organized by MMTTCRCC of Min of Education, Govt of Karnataka on 31/10/2025.
56. Dr.Sachinkumar,Prof. HOD of CSE(AI&ML) appointed as BOE-External for CSE and aligned Branches of NITR (Autonomous Institution) of the academic year 2025-26.
57. Dr. S Rohitraj (Prof & HOD - MBA Dept) was appointed as the Special Intivee by the Honorable Vice- Chancellor, Visvesvaraya Technological University Belagavi in the December 2025 to the meeting of BOE (Board of Examiners) in Business Administration (MBA and allied programmes).
58. Dr. S Rohitraj (Prof & HOD - MBA Dept) received certificate of Appreciation from NISM (National Institute of Securities Market) as a mentor in the NISM Ideathon 2025 Competition on Cybersecurity and Investor Awareness held during November 2025.

“Scrolling Away Dreams: How Social Media and Gaming Are Draining the Potential of Young upcoming Engineers”

Article:

In today’s digital era, the smart phone has become an inseparable part of every person’s life. Among Indian engineering students, the device that was meant to simplify communication and learning has slowly turned into a source of endless distraction. Hours meant for studying, developing skills, or exploring innovation are now being consumed by social media feeds and online games.

Engineering, once considered one of the most demanding and intellectually stimulating fields, requires discipline, focus, and continuous learning. However, many students find themselves checking notifications between lectures, scrolling through Instagram or YouTube late into the night, or engaging in multiplayer games for “just one more round.” What starts as a few minutes of relaxation often stretches into hours of unproductive screen time.

According to me, an average engineering student now a days spends 6–8 hours daily on their phone, with a significant portion devoted to social media apps like Instagram, Snapchat, as well as online gaming platforms like BGMI and Free Fire. This digital dependency not only affects their academic performance but also leads to sleep deprivation, reduced attention span, and lack of motivation.

It’s time engineering students recognize that technology should serve as a tool for growth, not an obstacle. Setting screen-time limits, using productivity apps, and engaging in real-world activities like group projects and hackathons can help students. Hope Gen Z students can turn their smart phones back into instruments of progress rather than distractions.

Revolutionizing Engineering Classrooms: Pedagogy Strategies That Work "Tell me and I forget. Teach me and I remember. Involve me and I learn."

-Benjamin Franklin

Engineering classrooms are evolving beyond traditional lectures to hands-on methods that prepare students for real-world challenges. Flipped classrooms let students watch short videos on topics like Poly Lactic Acid (PLA) properties for 3D printing at home, freeing class time for group problem-solving and discussions boosting comprehension by 30% as seen in IIT studies. Project-Based Learning (PBL) engages teams in designing prototypes with CAD and 3D printers, building teamwork and critical thinking while mirroring industry practices. Simple tech like AI quizzes, VR simulations for nanomaterials, and gamified apps turn complex subjects into interactive fun, aligning with AICTE's inclusive guidelines through accessible tools and peer mentoring for all students, including PwDs. Rote exams can be replaced with practical assessments-prototypes, reports, and reflections that track real growth. These proven strategies demand minimal faculty training but deliver higher engagement, better retention, and job ready graduates. Let’s adapt to the new teaching pedagogy’s for the upcoming semesters at Jain College of Engineering and transform teaching, empower learning, and engineer tomorrow's innovators.

3 Minute Project presentation competition

Chief Guest was Er. C. B. Hiremath, FIE, Chairman, IEI Belagavi, Er. Vilas D Badami, Hon. Secretary, IEI LC, Belagavi, Er. Kundargi S.Y., KSC, Committee Member, Er. B.G. Dharenni, KSC, Committee Member and other senior members were present on 08/12/2025.

ICIMS - 2025

On 26/12/2025 and 27/12/2025 International Conference on Intelligent Mobility Systems (ICIMS-2025) was conducted which brought together academicians, industry experts, researchers, and students.

Ph.D Awarded

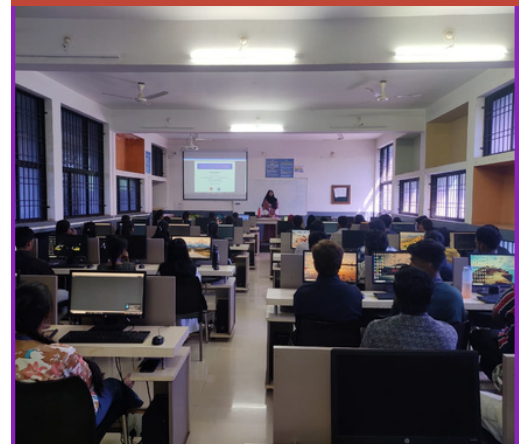

Mr. Ravishankar L. Hutagi of Mathematics Department completed Ph.D on the Title "Some Contributions to Algebraic Graph Theory" under the guidance of Dr. Sunilkumar Hosmani at the research centre Rani Channamma University, Belagavi.

Ph.D Awarded

Mr. Avinash Shrihari Joshi completed his Ph.D. titled "A Comparative Analysis of MIMO-OFDM Techniques using Hybrid Deep Learning Techniques" under the guidance of Dr. G. A. Bidkar at KLECET, Hubballi.

Knowledge Sharing Session

A Knowledge Sharing Session for second-year students on the topic "The Brain of AI: Exploring the World of Neural Networks", delivered by Ms. Misbah Tasleem N. S. on 18/11/2025.
